

Enter Wanted 1.3 Testing

Questions:

- Does the abbreviation 'MKE' stand as an intuitive and sufficiently understandable?
- Does 'Rewired' incorrectly stand for 'Required' in the 'Name' line?
- Does 'alphabet character' include both - lowercase and uppercase letters?
- Does 'State Abbreviation' indicate uppercase letters for state abbreviation only in the 'DL State' line?
- Does 'alpha' in the 'MKE' and 'Hair' line indicate alphabet and not alphanumeric?
- Does 'DL Year' incorrectly stand for 'DL Expiration Year'?

Testing:

- Submitting each field box with entries against documentation requirements:
 - number of characters
 - letters
 - numerals
 - special characters
- Submitting each field box with entries different than documentation requirements:
 - adding and subtracting 1 character for correct number characters required per field
 - adding different characters than required to check requirements
- Testing lowercase/uppercase letters in fields
- Testing optional/required fields requirements
- Checking for misspelling and text inconsistencies

Bugs:

1. MKE field: application accepts strictly 3 alphabet/special characters in field, description in Invalid report states the same
2. Sex field: doesn't accept uppercase letters
3. Race field: doesn't accept uppercase letters
4. Height field: accepts all characters
5. Weight field: accepts all characters
6. Hair field: accepts 1-10 characters, description in Invalid report states the same
7. Hair field: doesn't accept uppercase letters
8. Date of Warrant/Violation field: doesn't accepts numerals, accepts any letter and special character, description in Invalid report states the same
9. Drivers License field: when included and submitted, it doesn't require DL State & DL Expiration Year, nothing is indicated in Invalid report
10. DL State field: when included and submitted, it doesn't require Drivers License & DL Expiration Year, nothing is indicated in Invalid report
11. DL State field: state abbreviations accepted also in lowercase letters
12. DL Expiration Year field: accepts strictly 3 characters, description in Invalid report states the same
13. DL Expiration Year field: when included and submitted, it doesn't require Drivers License & DL State, nothing is indicated in Invalid report
14. License Plate field: included in the form but it is not in documentation requirements
15. License Plate field: doesn't accept uppercase letters
16. License State field: included in the form but it is not in documentation requirements
17. License State field: listed as required field, description in Invalid report states the same
18. License Year field: included in the form but it is not in documentation requirements
19. License Year field: it accepts just 2 characters and doesn't except numerals, description in Invalid report states the same
20. Upon successful entry, a text blob is not created, reporting: 'No results generated due to error.'
